

Process for Rooftop Solar Installation Under Delhi Solar Scheme:

1. Solar plant upto 3 KW are being installed under PM Surya Ghar ULA scheme.
2. Selected Vendor in your area will install Rooftop solar plant, for which empanelment is under process.
3. After empanelment, the vendor will visit your premises for technical feasibility.
4. The cost of solar plant will be discovered during empanelment process.
5. The solar plant cost for electricity consumers having average monthly electricity consumption upto 400 units/month during FY 2025-26, will be fully subsidized through PM Surya Ghar scheme and Delhi Solar energy Policy 2023.
6. Other Consumers will have to pay the balance amount to vendor.
